The annual migration of wildebeest and zebra is one of the park's great attractions, but throughout the year the Serengeti is excellent for seeing predators such as lion, leopard and cheetah, along with elephant, giraffe, hyena, hippo, rhino, and many varieties of antelopes and birds. DAY 3: SERENGETI (CENTRAL SERENGETI)

If you rise early you can take a morning game drive through the park to see the nocturnal predators returning from their nightly hunt and very active animals waking up in the early morning light. Depending on the time of year and the migration of the herds, you can expect to see wildebeest, lions, elephants, giraffes, zebras, monkeys, baboons, hippos, rhinos, antelopes, birds and other species.

we enjoy morning and afternoon game viewing drives on the vast Serengeti plains. In the early morning and evening light, the Serengeti landscape is stunningly beautiful. The Serengeti ecosystem supports the greatest remaining concentration of plains game in Africa, including more than three million large mammals. The park is one that can never disappoint. One is spoilt by the variety of bird and wildlife species in this game reserve. Depending with wildlife movement, we can have hot lunch at the camp or enjoy picnic lunch packets.

DAY 4: NGORONGORO CRATER

After breakfast we break the camp and drive south towards Ngorongoro. The drive is scenic and on arrival we descend some 610 meters into the crater, which is home to an abundance of wildlife and a photogenic paradise, for a full day of game viewing drive with picnic lunch at a private scenic site (hippos pool). Ngorongoro Crater, the largest intact caldera in the world teams with an abundance of wildlife permanently resident on the crater floor. Prides of lions, herds of Cape buffalo, impala, Thompson gazelles, rhino, golden and black backed jackal, zebra, cheetah, leopard and the spotted hyena freely roam on the crater floor plains. Unmatched for its natural variety and breath taking beauty, there are few places on earth where such a tremendous diversity of landscapes exist inside a region this size. Apart from its wildlife riches, the crater is also home to hundreds of bird species, refreshing in the small lakes in the crater floor. Spend the night few minutes drive from Ngorongoro.
